## SIKMA scs Executive Security Consultant Services About us

For more than 20 years , **SIKMA S.C.S** Executive Security Consultant Services , highly skilled and trained agents have provided protection for corporate leaders , athletes , royal families and diplomats.

Our services range from providing one - time executive personal protection to developing long - term comprehensive personal protection service programs.

SIKMA S.C.S Bodyguards & Close Protection Services, offers the skills , expertise , and global resources to provide major companies and clients around the world with comprehensive security Design Services that help create an effective , balanced security regime involving clearly defined protocols.

SIKMA S.C.S Bodyguards & Close Protection Services , provides the expertise and a vast array of supporting resources to provide reliable personal protection anywhere throughout the country - or around the globe , at a moment's notice .

SIKMA S.C.S Bodyguards & Close Protection Services , name has been synonymous with Security Consulting Services and the executive protection , SIKMA S.C.S offers more than just a consultancy based on pre-established " best practices".

## **SIKMA scs Executive Security Consultant Services**

### **Executive Personal Protection**

### **Close Protection Agents & Bodyguard Service**

More than just a bodyguard service , SIKMA S.C.S Security Consultant Services, provides strategy and planning along with reliable, comprehensive executive protection throughout the world .

Executive protection should never be mistaken for body guarding . Our belief is that the best executive /personal protection security is based on advance preparations and planning , 24 hour information ,licensed with local authorities , and the use of highly trained professionals.

This advance preparation guarantees that our close protective services remain discrete and dignified leaving you safe and secure.

Our proven executive threat assessment methodology is based on more than 25 years of providing executive protection in some of the most challenging locales in the world.

This assessment considers the public exposure of the corporate executives and their families, examining any past security incidents, and interviewing employees and others who interact with the executives' daily lives.

We also conduct on-site reviews of security measures and policies at residences, offices, and for travel.

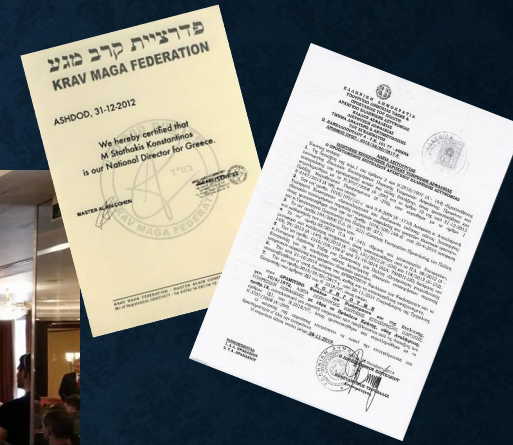

## SIKMA scs Executive Security Consultant Services

### Our Service

- Executive Protection. Our operatives provide immediate close protection and advise our clients on security issues.
- They are licensed within the jurisdictions they operate and have carried out the appropriate level of training.
- Additionally, they have many years of operational experience in similar assignments.

Protective Surveillance. This is a low-profile approach used to protect clients who wish to maintain their privacy with the knowledge that a responsive security team is close at hand should a situation arise.

•Security Driver. The addition of a security driver ensures that clients are safely transported. This can be further enhanced by the use of an escort vehicle and additional close protection operatives should the threat dictate an elevation in security.

•Counter Surveillance Support. While providing executive protection in more complex situations, there may be intelligence or information to suggest that the client under our protection is being followed.

## SIKMA scs Executive Security Consultant Services

### Our Service

•Travel-related risk planning. Whether an executive is traveling domestically or internationally, by ship or private aircraft, we provide services to address the risk of traveling in today's world. We will assess the executive's current safety plans, provide travel intelligence, and train family members in proper travel security.

•Crisis management. These highly specialized services are designed to minimize clients' vulnerability through pre-emptive planning and timely, expert guidance in the event of a crisis.

•We can support existing executive protection measures with the use of a counter surveillance team who will observe our movements and identify third parties who are monitoring our movements.

• Our aim is then to observe and identify the parties involved or provide covert intervention measures to deter, delay or deny any further surveillance of our clients.

•Residential Security. Close protection operatives can be deployed to secure both homes and offices. This ensures the client's home is secured 24 hours a day, in addition to their office when required.

•Information Integrity. A wide range of protective services to ensure the integrity of information at home, in the office, and while traveling.

## SIKMA scs Executive Security Consultant Services RISK ANALYSIS & MANAGMENT

At **SIKMA SCS** we provide a full range of Security Consultancy Services, Risk Analysis, Threat management and Solutions to support your Business or Social Activities.

We would be delighted to discuss your requirements or any broader support that we can provide to yourself or your company and its operations in these hostile or difficult Times.

### SECURITY CONCEPT

The greatest contribution to your business or personal security can be made by recognizing and understanding there is a Threat. By developing a sense of security awareness and encouraging the use of practical and Proven Security Measures within your business, your family and with colleagues and employees.

There is no need to over react to security problems.

However, the Aim should be to keep at least one step ahead of the opposition.

Most criminals and terrorists have a strong instinct for self survival and this factor is paramount in their reconnaissance and target surveillance efforts of businesses and individuals.

Therefore with proper management, and by applying time and effort into your security planning, you can positively Deter the criminal and terrorist and deflect their interest towards other areas.

Avoidance of self targeting and unnecessary exposure to potential risks are two of the fundamental security concepts.
